DON'T THROW AWAY YOUR CHANCE TO WASTE LESS

Bywaters
CONSERVE — SUSTAIN — RECYCLE

Your chance to waste less

Are you looking to reduce your environmental impact?

Would you like to maximise your recycling rates?

Would you like to minimise the cost of your waste management?

Are you concerned about dealing with waste safely and legally?

If your answer to these questions is 'yes', then Bywaters has the solution for you.

Our waste awareness course, your chance to waste less.

Improving environmental performance

Bywaters' waste awareness course is accredited by the Chartered Institution of Wastes Management. It is aimed at anyone keen to improve their own and their organisation's environmental performance.

The course provides knowledge, understanding and skills to improve the management of waste and minimise the cost of waste disposal.

Following the success of the course, a construction module has been added to the syllabus. This gives you an introduction to the basic waste management requirements specific to this industry.

This one-day course is run at our dedicated environmental training centre in our offices in Bow. The course runs from 9.00am to 5.00pm with lunch and refreshments included.

A Chartered Institution of Wastes Management certificate is awarded upon satisfactory completion of the course and a short, open-book examination.

What you learn

The course meets the Chartered Institution of Wastes Management aims of:

Providing understanding of different types, natures and quantities of waste

Explaining the waste hierarchy of reduce, reuse, recycle

Demonstrating how to improve current waste management practices

Explaining the impact of waste on the environment and what are sustainable practices in waste management

Demonstrating the role of legislation, in particular the Duty of Care, in promoting best practice

Raising awareness of health and safety issues in the handling, movement and storage of waste

Enabling participants to conduct basic waste audits

Explaining the fundamentals of site waste management plans
